

Detail drawing of a window frame cross-section. The drawing shows a vertical window frame with a sill. Dimensions are given in millimeters. The frame has a width of 150 mm and a height of 220 mm. The sill has a width of 450 mm and a height of 40 mm. The frame is made of aluminum (Al) and is filled with insulation (isolasi). The sill is made of concrete (beton) and is covered with a layer of ceramic (keramik). The frame is sealed with silicone (silikon) and has a gasket (gasket) on the bottom. The drawing also shows a detail of the frame corner with dimensions 80 mm and 130 mm. A note indicates that the frame is made of aluminum (Al) and is filled with insulation (isolasi).
