

This technical drawing illustrates a road reconstruction project for road II/425, showing both plan and profile views. The plan view at the top shows the road layout with various lanes, including a 3.5m wide lane for traffic signs and a 2.5m wide lane for traffic signs. The profile view below shows the road's elevation and the proposed reconstruction work. The drawing includes numerous annotations for construction details, such as:
 

- Plan View:** Shows the road layout with various lanes, including a 3.5m wide lane for traffic signs and a 2.5m wide lane for traffic signs. It also shows the location of various structures, including a bridge over a stream and a drainage system.
- Profile View:** Shows the road's elevation and the proposed reconstruction work. It includes a detailed cross-section of the road, showing the existing and proposed pavement structure, including the subgrade, base, and surface layers.
- Annotations:** Numerous text labels provide specific instructions for construction, such as "ZASTAVKA PRÁVNÍKOVÉHO PŘÍKRYTÍ" (stop construction of the pavement), "VÝŠETŘENÍ PŘÍKRYTÍ" (inspection of the pavement), and "VÝŠETŘENÍ PŘÍKRYTÍ" (inspection of the pavement).
- Scale:** The drawing is scaled at 1:500, as indicated by the text "MÁŠTĚB 1:500".
