

Figure 1 is a dendrogram illustrating the hierarchical clustering of 10 morphological characters for three species of the genus *Kribia*. The characters are: K08 (Dzenci), K09 (Dzenci), K10 (Dzenci), K08 (Dzenci), K09 (Dzenci), K10 (Dzenci), K08 (Dzenci), K09 (Dzenci), K10 (Dzenci), and K08 (Dzenci). The dendrogram shows that K08 and K09 cluster first, then K10 joins them. The next cluster is formed by K08 and K09, which then joins the previous cluster. The final cluster is formed by K08 and K09, which then joins the previous cluster. The scale bar at the bottom indicates distances from 0.00 to 1.00.
